**Filbert's Party Pals**

Introducing The Party Pals is a 2 CD set compilation of stories, music, jokes and skills designed to provide hours of good home entertainment for children all over the world. The double CD is designed to entertain children ages 1-7 on the first CD and ages 7-16 on the second CD. The Party Pals are an assortment of dinosaurs that celebrate birthdays each and everyday starting with the first birthday party that occurred over 70 million years ago.

All dinosaurs are based on more than 500 species of actual dinosaurs found all over the world during the Jurassic and Crustaceous period of time. The featured characters are Filbert, Archie, Corey, Trudy, Rexton, and Albert. These characters create the basic theme of the stories contained on these fun disc. Filbert makes the toys, Trudy makes the cakes and invitations, Corey makes the music, and since Archie the blue pterodactyl can't fly, he makes all of the dances. The pals are constantly harassed by Rexton the Tyrannosaurs Rex, and his smaller cousin Albert named after the Albertasaurus of Canada. The Party Poopers attempt to crash every party they hear about. Rexton is a wacky dinosaur that only eats birthday cake, his cousin and best buddy Albert loves to trash gifts and dispose of them in the party pooper pit back at Corruption Hall the Party Pooper Headquarters.

**Other Products**

As an extension of the double CD we have developed the Big Bash Party Box. This Party box will alleviate the pain of matching hats, napkins and other party supplies. Every product will feature one of the company's proprietary cartoon characters. The company has more than 500 named characters and we are planning to create more than 500 new songs by the end of 2009.
